**Abstract**—Asia Simulation Conference 2009 (JSST 2009) will be held to explore challenges in methodologies for modeling, control and computation in simulation and their applications in various fields including social, economic and financial as well as already established scientific and engineering solutions. It includes keynote speeches presented by technology and industry leaders, technical sessions, student poster sessions, as well as vendor exhibits.

**Keywords**—keyword1, keyword2, keyword3

## 1 Introduction

Asia Simulation Conference 2009 (JSST 2009) will be held to explore challenges in methodologies for modeling, control and computation in simulation and their applications in various fields including social, economic and financial as well as already established scientific and engineering solutions [1].

It includes keynote speeches presented by technology and industry leaders, technical sessions, student poster sessions, as well as vendor exhibits [2].

## 2 Section One

Asia Simulation Conference 2009 (JSST 2009) will be held to explore challenges in methodologies for modeling, control and computation in simulation and their applications in various fields including social, economic and financial as well as already established scientific and engineering solutions.

It includes keynote speeches presented by technology and industry leaders, technical sessions, student poster sessions, as well as vendor exhibits.

### 2.1 Subsection One

Asia Simulation Conference 2009 (JSST 2009) will be held to explore challenges in methodologies for modeling, control and computation in simulation and their applications in various fields including social, economic and financial as well as already established scientific and engineering solutions.

It includes keynote speeches presented by technology and industry leaders, technical sessions, student poster sessions, as well as vendor exhibits.

### 2.2 Subsection Two

Asia Simulation Conference 2009 (JSST 2009) will be held to explore challenges in methodologies for modeling, control and computation in simulation and their applications in various fields including social, economic and financial as well as already established scientific and engineering solutions.

It includes keynote speeches presented by technology and industry leaders, technical sessions, student poster sessions, as well as vendor exhibits.

## 3 Discussion

Asia Simulation Conference 2009 (JSST 2009) will be held to explore challenges in methodologies for modeling, control and computation in simulation and their applications in various fields including social, economic and financial as well as already established scientific and engineering solutions.

It includes keynote speeches presented by technology and industry leaders, technical sessions, student poster sessions, as well as vendor exhibits.

## 3.1 Subsection One

Asia Simulation Conference 2009 (JSST 2009) will be held to explore challenges in methodologies for modeling, control and computation in simulation and their applications in various fields including social, economic and financial as well as already established scientific and engineering solutions.

### 3.1.1 Sub-subsection One

Asia Simulation Conference 2009 (JSST 2009) will be held to explore challenges in methodologies for modeling, control and computation in simulation and their applications in various fields including social, economic and financial as well as already established scientific and engineering solutions.

It includes keynote speeches presented by technology and industry leaders, technical sessions, student poster sessions, as well as vendor exhibits.

Table 1. ASIA Simulation Conference 2009.

Place	Ritsumeikan University, Shiga, Japan
Date	October 7 – 9, 2009
Web site	<a href="http://www.jsst.jp/e/asc2009/">http://www.jsst.jp/e/asc2009/</a>

## 4 Conclusion

Asia Simulation Conference 2009 (JSST 2009) will be held to explore challenges in methodologies for modeling, control and computation in simulation and their applications in various fields including social, economic and financial as well as already established scientific and engineering solutions.

It includes keynote speeches presented by technology and industry leaders, technical sessions, student poster sessions, as well as vendor exhibits.
